

# BIG RIVER BENEFITS

*A TRUSTED PARTNER FOR DPC  
CLINICS NATIONWIDE.*

**Your Clinic. Your Terms. Our Support.**

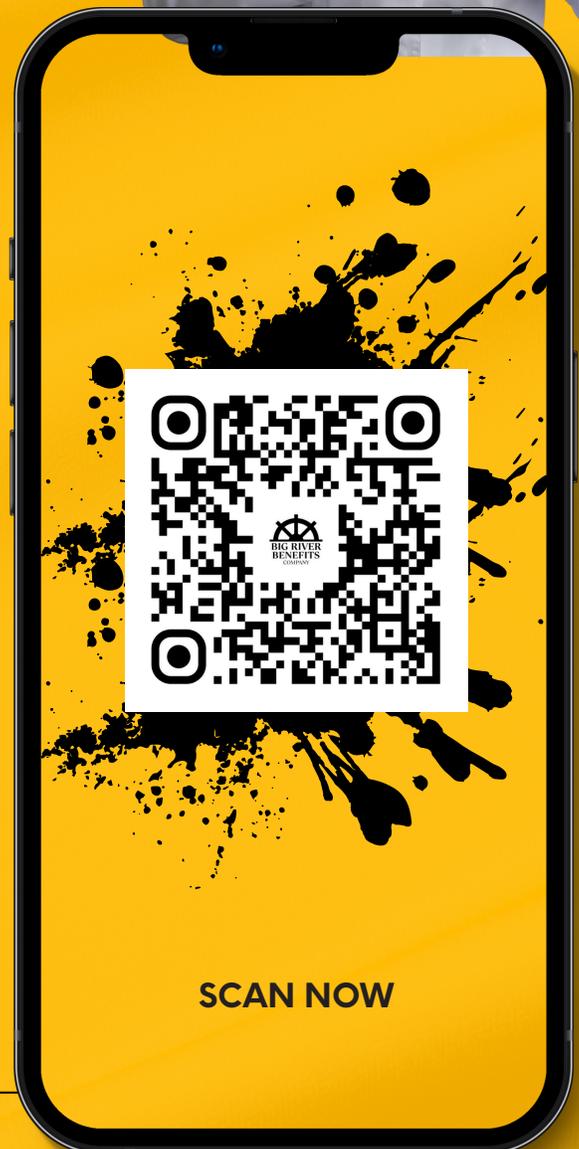

## Introducing

**Big River Benefits was built to protect your autonomy — and help you serve more patients without ever compromising your model.**

- No Contracts with Clinics
- You're not "joining" us — we're referring employers to you.
- Your rates stay yours. Always.
- More Patients, Less Admin.
- We bring aligned employers who understand and value the DPC model.
- We're in This With You
- Founded by a veteran. Rooted in transparency. Married to a DPC doc.

**You didn't build your practice to answer to insurance companies — and neither did we. Big River Benefits exists to champion the DPC model by connecting your clinic with employers who truly get it. No contracts. No interference. Just more of the right patients — sent your way, on your terms.**

## Breaking The Health Care Industry

**WE BELIEVE IN THE FUTURE OF DPC - BECAUSE WE LIVE IT.**

### OUR STORY:

I'm Andrew Jenkins – founder of Big River Benefits, a father, a veteran, and the husband of a DPC physician. I've seen firsthand the power of direct care to change lives.

I also saw the problem:

Too many employers want real healthcare options... but don't know where to start. Meanwhile, DPC clinics are fighting for visibility in a world built around bloated insurance plans.

So I built a bridge.

We pair values-aligned employers with trusted DPC clinics – helping them escape the red tape while protecting your autonomy and values.

### HOW IT WORKS:

**We Meet the Employer**  
We assess fit, explain the DPC model, and handle compliance.

**We Refer Them to You**  
We share your info with the employer. You decide if it's a fit.

**They Join Your Practice**  
You charge your normal rates.  
We never interfere.
