

Big River Benefits

Healthcare That Actually Works For You & Your People

What Makes Big River Different?

Lower Monthly Pricing

No surprise bills. Just one simple, predictable monthly rate per employee, so you can finally budget with confidence.

Same-Day Appointments

Your team shouldn't have to wait weeks to get help. With Big River, employees can see a provider the same or next day.

Real Relationships with Trusted Doctors

This isn't a call center or rotating provider list. Our Direct Primary Care partners build lasting relationships with your team, so care is personal, not rushed.

Employee Education & Support from Day One

We don't just hand you a plan and walk away. From onboarding to ongoing support, we make sure your employees understand and actually use their benefits, so you can see real value.

TIRED OF PAYING MORE FOR LESS?

Traditional plans are broken. Premiums rise, employees wait, HR gets stuck, and no one feels cared for. **It's not your fault.** The system wasn't built for people, or for businesses like yours.

BUILT BY A VETERAN WHO WALKED AWAY FROM THE SYSTEM.

Founder **Andrew Jenkins** is a veteran of the Army and a longtime healthcare advocate who left the traditional model behind to build a smarter, human-first solution for employers.

"I didn't want to play the game anymore. I wanted to build something that actually helps people."

Let's Build Smarter Benefits!
